

Krateks – production of women clothing

Krateks produces woman's clothing of highest quality. The company is specialized at so called heavy confection such as woman jackets, coats, trousers, skirts, dresses.

Krateks employs 260 workers, 230 in the production itself.

The production is organized in 2 departments: cutting and sawing. Sawing has five production lines. Each line has around 35 people including ironing.

We work on the machines of highest technology are very modern equipped and are one of the best woman clothing manufacturers in this part of Europe.

CAD

CAD department uses- ASSYST

Our cutting department has cutter BULMER, with stripe laying table, also classic hand cutting and all other equipment. KANNEGIESER press.

Each production line has its own control.

Our working hours are from 6.am □ 2p.m.

References:

As mentioned we have 5 production lines, mostly each line has a customer it works for during the whole year.

Mostly 3 of our lines make woman jackets for HUGO BOSS (Boss woman), one line for Strellson (Windsor, Joop) and one for ESCADA, our newest customer is STRENNESE since last year.

Depending on demands we put other customers in the production line for example STRENNESE, AIRFIELD and others.

HUGO BOSS, STRELLSON, FUCHS & SCHMITT and ESCADA are our customers for over 12 years. We used to work for RENA LANGE, DOLCE & GABANA and many others.
